ADDENDUM NO. 2

Date: April 20, 2016

**ITB No. 16-0424, Design, Furnish and Install Musco Sports Lighting
at the Sports Fields in North Lake Community Park**

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid or proposal response. Acknowledgement may be confirmed either by inclusion of a signed copy of this addendum with their response by completion and return of the addendum acknowledgement section of the solicitation. Failure to acknowledge each addendum may prevent the bid or proposal from being considered for award.

Questions and Answers:

Question 1: Is there a conduit stubbed out from under the concrete for the future lighting to be installed? Getting power from inside the building out to the grounds would require cutting the concrete if there were no spare conduits in the last phase of work.

Answer 1: It is the Contractors responsibility to supply all conduit, core drilling, concrete removal as well as replacing concrete to complete the scope of work.

Question 2: Does the County have as-builts for the existing buildings?

Answer 2: The County has a print copy from 2006 which can be viewed at the Parks and Trails office located at 12929 County Landfill Road, Tavares, Florida 32778. We do not have it electronically.

Question 3: Are there any extra conduits coming out of the existing buildings for future lighting that can be used on this project.

Answer 3: There are no extra conduits available to be used on this project. It is the Contractors responsibility.
